

The GitHub Trail Map

A complete guide to the territory — walked at your own pace, before you ever open the browser.

MAP LEGEND

●

 Cover in this session

●

 Mention briefly

●

 Skip for now — return later

SECTION I

Free Courses

skills.github.com

01

 Introduction to GitHub
Repos, branches, commits. ~1 hr.

02

 Communicate with Markdown
Format READMEs beautifully.

03

 GitHub Pages
Build a free portfolio site.

04

 Review Pull Requests
Collaborate with others.

SECTION II

Issues & Projects

task lists, built in

START HERE

01

 GitHub Issues
A built-in task list for any repo. Create tasks, track progress, discuss ideas. Works for ANY career — not just code.

WEEK 1

02

 GitHub Projects
A Kanban board built right into GitHub. Board, table, and roadmap views. Useful for PM, sales, ops.
“Like Trello, but stitched into the project itself.”

WEEK 2

WEEK 3+

SECTION III

GitHub Pages

yourusername.github.io

→

 Free site from any repo
Turn a repository into a live website in three clicks. No coding required for a basic page.

GREAT FOR

personal portfolio
